Notes regarding permit issuance and extra fees. *Please read before signing below.*

The Florissant Valley Fire Protection District has adopted the International Building, Fire, Residential and Mechanical Codes, the 2003 editions, with some additions and deletions. All construction shall conform to these standards. Copies of the specific enacting Ordinances can be viewed upon request. One copy of the proposed construction plans with specifications is required for review. Specific review comments formulated by the Fire Marshal's office will be sent to the above address in a form of a plan review letter.

Additional fees shall be charged for starting work prior to applying for this permit. This fee can be as much as the original fee. A fee shall be charged for multiple inspections, this fee shall be charged to the applicant each and every time a re-inspection or retest of the work is needed. The re-inspection fee can be ½ (one half) the amount of the original permit fee for each re-inspection or retesting. Fees will be paid before final occupancy is granted.
